,
Playing Piano

PROFESSIONAL EXPERIENCE

Web Developer Instructor, America on Tech

07/2022 – present | Remote

- Instruct high schoolers in the best practices of HTML, CSS, and Bootstrap.
- Modify curriculum for a smoother and comprehensive learning experience.
- Provide live coding demos of principles and methods for web development.
- Grade and critique students' projects on modern standards.
- Assist students in debugging their code.

Coding Teacher, Create and Learn

01/2022 – present | Online

- Instruct and manage class sizes of 4-10 of all ages via Zoom on coding concepts and principles.
- Document the skills sets of all students during each class session.
- Simplify complex CS terms and principles for ages 6-17.
- Instruct the foundations of coding through Scratch.

Tutor, Slyvan Learning Center

11/2021 – present | Valdosta

- Provide one-on-one assistance to students from all content (K-12)
- Teach mini-lessons across all contents in groups of 2-4 students.
- Help students stay on task during allotted time slots.
- Analyze and comment on students' performances at the end of each session.

Algebra I Support Teacher, CA Gray Jr Highschool

01/2021 – 05/2021 | Moultrie

- Created basic review websites for my students using HTML, CSS, and JavaScript.
- Evaluated student performance and prepared recommendations to parents and administration as needed.
- Oversaw 30-student capacity classes and maintained focus on classroom material.
- Adapted to the needs of the classroom, applying new and innovative teaching strategies.
- Edified content for struggling students after class time to clarify learning objectives and encourage study habits.

PUBLICATIONS AND COMPLETED WORK

Portfolio, <https://grassfinn.github.io/Portfolio-site/>

A collection of all the projects I've done and current projects

HarpCode, <https://harpcode.tech/>

A monthly blog where I write technical material.
